Confidential

Dear Sir,

Credit rating for proposed Non-Convertible Debentures issue

Please refer to your request for rating of proposed Non-Convertible Debentures issue aggregating to Rs.50 crore of your company.

2. The following rating has been assigned by our Rating Committee:

Instrument	Amount (Rs. crore)	Ratings	Rating Action
Non-Convertible Debentures (Proposed)	50 (Rupees fifty crore only)	CARE A-; Negative (Single A Minus; Outlook: Negative)	Assigned

2. Please arrange to get the rating revalidated, in case the proposed issue is not made within a period of **six months** from the date of our initial communication of rating to you.
3. In case there is any change in the size or terms of the proposed issue, please get the rating revalidated.
4. Please inform us the below-mentioned details of issue immediately, but not later than 7 days from the date of placing the instrument:

Instrument type	ISIN	Issue Size (Rs cr)	Coupon Rate	Coupon Payment Dates	Terms of Redemption	Redemption date	Name and contact details of Debenture Trustee	Details of top 10 investors

5. Kindly arrange to submit to us a copy of each of the documents pertaining to the NCD issue, including the offer document and the trust deed.
6. The rationale for the rating will be communicated to you separately.

CARE Ratings Ltd.

7. CARE reserves the right to undertake a surveillance/review of the rating from time to time, based on circumstances warranting such review, subject to at least one such review/surveillance every year.
8. CARE reserves the right to revise/reaffirm/withdraw the rating assigned as also revise the outlook, as a result of periodic review/surveillance, based on any event or information which in the opinion of CARE warrants such an action. In the event of failure on the part of the entity to furnish such information, material or clarifications as may be required by CARE so as to enable it to carry out continuous monitoring of the rating of the debt instrument, CARE shall carry out the review on the basis of best available information throughout the life time of such instrument. In such cases the credit rating symbol shall be accompanied by "ISSUER NOT COOPERATING". CARE shall also be entitled to publicize/disseminate all the afore-mentioned rating actions in any manner considered appropriate by it, without reference to you.
9. Users of this rating may kindly refer our website www.careratings.com for latest update on the outstanding rating.
10. Our ratings do not factor in any rating related trigger clauses as per the terms of the facility/instrument, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and if triggered, the ratings may see volatility and sharp downgrades.
11. CARE ratings are **not** recommendations to buy, sell or hold any securities.

If you need any clarification, you are welcome to approach us in this regard. We are indeed, grateful to you for entrusting this assignment to CARE.

Thanking you,

Yours faithfully,

[Viraj Dhond]
Deputy Manager

Ratings

Instrument	Amount (Rs. crore)	Ratings	Rating Action
Non-Convertible Debentures (Proposed)	50 (Rupees fifty crore only)	CARE A-; Negative (Single A Minus; Outlook: Negative)	Assigned

Details of instruments/facilities in Annexure-1
Detailed Rationale & Key Rating Drivers

The rating factors in the established presence of the Centrum Group in the financial services segment, with experienced management and comfortable capital adequacy levels of Centrum Financial Services Limited (CFSL).

The rating is however constrained by concentration in CFSL's loan portfolio towards supply chain financing and entry into newer products segments i.e. MSME which are yet to be established. The rating also takes into account CFSL's weak profitability and concentrated resource profile amidst overall tight funding scenario for NBFC/HFC sector.

In light of current outbreak of COVID-19 and the nationwide lockdown, the liquidity profile of CFSL is primarily dependent upon collections from supply chain book. As per liquidity statement dated March 31, 2020, CFSL cash and bank balance of Rs.78 crore against which company has debt outflows of around Rs.142 crores until June'20 after considering moratorium given on bank/NBFC borrowing. The company has requested moratorium from bank/NBFC term loan borrowing and existing lenders have provided moratorium except from one lender which is under discussion. Further, company is expecting moderated collections of Rs.224 crore until June'20 against scheduled collections of Rs.337 crore during same period on account of moratorium extended by CFSL. The expected moderated of collection Rs.224 crore until June'20 are primarily contributed by Supply Chain Book, being a short tenor book with facilities being self-liquidating in nature.

CARE also takes note of the recent measures announced by RBI in light of the Covid-19 pandemic to provide liquidity (including Targeted long term repo operations) and relaxation on asset classification.

Outlook: Negative

The outlook is 'Negative' on account of depletion of equity funds committed for future growth, concentrated resource profile along with product concentration and weaker profitability amidst challenging funding environment for NBFCs & HFCs. Further 'Negative' outlook also takes into account current outbreak of COVID-19 and the nationwide lockdown which could impact the asset quality of CFSL going forward. Given the tough operating environment for real estate/commercial finance & MSME players on the back of expected lower economic growth, the asset quality and profitability of CFSL may be under pressure.

The outlook may be revised to 'Stable' if the company is able to improve its profitability, scale up its credit book, diversify its resource profile, establish visibility of equity infusion and maintain the asset quality at current levels.

Rating sensitivities

Positive factors - Factors that could lead to positive rating action/upgrade:

- Sizeable capital infusion

Negative factors: Factors that could lead to negative rating action/downgrade:

- Material deterioration in asset quality beyond 4% on a sustained basis
- No material improvement in profitability in the short to medium term and losses in the short term
- Continuing concentration in resource and product profile
- Increase in gearing levels beyond 4x.

Detailed description of the key rating drivers of CFSL
Key rating strengths
Established presence of the group in the financial services segment

CFSL was 100% subsidiary of Centrum Capital Limited (CCL). However, the entire shareholding of CFSL was sold by Centrum Capital Limited (CCL) to Centrum Retail Services Limited (CRSL) as on June 30, 2019. CCL holds 93.33% of CRSL and the balance is held by Promoters. The centrum group has presence across various segments including institutional business (investment banking, institutional broking), wealth management business (private wealth, insurance broking), lending

businesses (affordable housing, NBFC and microfinance) and asset management business. Centrum Wealth Management is amongst the top private wealth management firms in India of which the asset under service as on Sept 30, 2019 stood at Rs.21,026 crores. The group has set-up Centrum Housing Financial Ltd (CHFL) for offering affordable housing loans and a non-banking finance company, Centrum Financial Services Limited (CFSL) for offering business loans to small and medium enterprises and Centrum MicroCredit Pvt Ltd for providing loans to un-served and under-served borrowers operating small businesses in semi-urban areas.

Experienced management

The centrum group is being led by Mr. Jaspal Bindra former Asia Pacific CEO at Standard Chartered Bank in the role of Executive Chairman of Centrum group.

Mr. Ranjan Ghosh is the MD of CFSL since 2016. He is the former MD and Global Head of Banks, Financial Institutions Group for Standard Chartered Bank. Mr. Saurabh Srivastava is the Head – Credit Risk. He has 18+ years of Experience in the banking industry across various functional roles with MNCs and Leading NBFCs like HSBC and Aditya Birla Finance. Each of the business segments is managed by experienced people in the relevant segments.

Comfortable capital adequacy levels

The tangible net worth stood at Rs.292.98 crores as on March 31, 2019 as against Rs.168 crores as on March 31, 2018. CCL has infused equity of Rs.60 crores in FY18 and Rs.140 crores as equity and Compulsory convertible debentures (CCD's) in FY19. CCL has earlier committed a total equity infusion of Rs. 450 crores ie Rs. 150 crores in FY19 and Rs. 300 crores in FY20 in CFSL, the visibility of the cashflows was seen due to the proceeds of ~Rs. 900 crores received from the stake sale of Centrum Direct Limited. In light of the challenging funding environment for NBFCs, CFSL recalibrated its growth plans whereby the equity funding requirement came down from what was initially envisaged. However, the visibility of funds for equity infusion, which was evident at the parent level last year, has reduced substantially. Hence, the company/promoter will have to raise resources to meet their capital requirement in future and this remains a key rating monitorable.

In FY19, Total Capital Adequacy Ratio (CAR) stood at 23.01% (against the regulatory requirement of 15%) with Tier I CAR at 21.44%. The overall gearing stood at 3.33x times as on March 31, 2019 as compared to 2.04 times as on March 31, 2018. As on December 31, 2019, CAR and Tier-I Capital stood comfortable at 25.04% and 23.07% respectively. The gearing also has improved to 2.59x times as on December 31, 2019.

Key rating weaknesses

Portfolio concentration & seasoning of new products

As on March 31, 2019, the outstanding portfolio stood at Rs.1134 crore as against Rs.343 crore as on March 31, 2018. In FY18, CFSL had envisaged a certain portfolio mix focused with diversification of book across different asset classes primarily being commercial finance, financial institutions, supply chain and real estate. However, in FY19 CFSL bought the supply chain portfolio (with relatively granular ticket size loans) from L&T Finance Limited which constitutes almost 54% of the outstanding book as on March 31, 2019.

In case of real estate portfolio, almost 40% of the book is in the last stage of completion and the sales velocity of this book is also high which helps to derive comfort. In case of FI's portfolio, as on March 31, 2019, exposure to MFI's is 73.4% of the total financial intermediary portfolio, however it being a relatively riskier asset class on account of event risks, asset quality performance and its impact on profitability will be key rating monitorable.

In the commercial finance portfolio as on March 31, 2019, top 10 exposures contribute to 56.74% of the tangible net worth, 45.47% of the outstanding commercial finance portfolio and 14.66% of the total outstanding book. Maximum single borrower concentration is at 2.20% which is below the regulatory requirement of RBI at 15%.

Besides, LAS being a small portfolio has an average security cover of at least 2x at all times. However, this business is in the process of being wound up.

The supply chain business being competitive in nature, it is imperative for CFSL to access funding at relatively lower rates to maintain the spreads on an on-going basis, With current scenario in the NBFC sector, with lower funding availability and higher cost of funds, CFSL ability to do the same needs to be monitored.

Going forward, CFSL intends to diversify its portfolio with lower ticket sizes in the SCF and MSMSE portfolio. Company is primarily focusing on expanding its portfolio through supply chain through alternate business models and financing including co-lending method, MSME financing and lending to financial institutions mainly MFI's. These new products lines are expected to improve the granularity of the overall portfolio, however the asset quality performances of these new segments through the cycles remains to be seen.

Small size of operations with comfortable asset quality

As CFSL is in early years of operations, the size of business is small and the seasoning of portfolio is limited. As a result, its asset quality performance through different economic cycles and geographies is yet to be established. The portfolio outstanding as on March 31, 2019 is Rs. 1134 crore. Even though the seasoning of the portfolio is low, CFSL portfolio is over-collateralised generally 1.2x or 2x of the loan amount for the exposures in commercial finance, real estate and Financial Intermediary segment. Even in case of LAS, the company has a cover of at least 2x at all times. Besides, supply chain being a short term loan churns faster and the ability to scale up the book along with reasonable yields continues to remain a key monitorable. As on December 31, 2019, GNPA and NNPA stood comfortable at 1.88% and 0.78% respectively.

Moderate Profitability

The company is in early stage of operations and has achieved break even in FY19. The Yield on Advances stood at 12.36% and NIM stood at 2.67% as on March 31, 2019. The supply chain book of Rs.647 crores acquired from L&T was a part of the portfolio from January, 2019 onwards and income on the same was only accounted for 3 months and the adjusted yield would be 14.01%. High levels of liquidity was maintained in the form of deposits, investment in liquid funds and temporary advances, all of which impacted yields and thereby profitability. The cost of borrowings stood at 9.92% as on March 31, 2019. The buy-out of supply chain portfolio has resulted in rise in employee benefit and other operational expenses but has provided liquidity and diversified portfolio. The yields on the entire portfolio including the SCF yields has been repriced from Q2FY20 onwards, which would enable the Company to have better average yield.

During 9MFY20, company has total income of Rs.117 crores, the increase being primarily due to increase in yields and acquisition of Supply Chain Book from L&T. Thus the ability to improve profitability shall continue to remain a key monitorable going forward.

Moderate Resource Profile

As on March 31, 2019, the borrowings stood at Rs.975 crore. Post the NBFC crisis in September'18, company's major source of finance has been only through MLD's. Post March,2019, CFSL has been raising MLD's of approx. Rs.25-30 crores in each month and same is expected to continue in FY20. Thus, Company has availed minimal loan from any bank/NBFC post March, 2019 and is largely dependent on MLD's as a source of finance thereby accessing the capital markets. However in FY20 and currently, CFSL has been able to raise few facilities from banks viz; Union Bank of India, State Bank of India, RBL Bank, Andhra bank. As on December 31, 2019, the borrowings stood at Rs.742 crores.

Liquidity: Adequate

The Company's ALM profile shows no negative gaps in any time brackets as on December 31, 2019 on higher proportion of Supply chain book, which is short term in nature. As per liquidity statement dated March 31, 2020, CFSL cash and bank balance of Rs.78 crore against which company has debt outflows of around Rs.142 crores until June'20 after considering moratorium given on bank/NBFC borrowing. The company has requested moratorium from bank/NBFC term loan borrowing and existing lenders have provided moratorium except from one lender which is under discussion. Further, company is expecting moderated collections of Rs.224 crore until June'20 against scheduled collections of Rs.337 crore during same period on account of current COVID-19 pandemic and nationwide lockdown. The expected moderated of collection Rs.224 crore until June'20 are primarily contributed by Supply Chain Book of CFSL, which is short term nature and less likely to impacted by current nationwide lockdown. In light of above, collections from supply chain book are critical to the liquidity profile of CFSL.

Analytical approach: Standalone approach with support from promoters considered.
