SECTION III - RISK FACTORS**Internal Risk Factors****1. Any increase in the levels of non-performing assets ("NPA") on our loan portfolio, for any reason whatsoever, would adversely affect our business and results of operations.**

Consistent with the growth of our branch network and our product portfolio, we expect an increase in our loan assets. Should the overall credit quality of our loan portfolio deteriorate, the current level of our provisions may not be adequate to cover further increases in the amount of our NPAs. Moreover, there also can be no assurance that there will be no further deterioration in our provisioning coverage as a percentage of Gross NPAs or otherwise, or that the percentage of NPAs that we will be able to recover will be similar to our past experience of recoveries of NPAs. As of March 31, 2020, the gross value of NPAs on our books of accounts was 2% of our total loan book. While we believe that we have adequately provided for NPAs to cover known or expected losses which may arise in our asset portfolio, any increase in the level of final credit losses shall adversely affect our business and future financial performance.

Post COVID-19 lockdown being lifted, the operational and financial performance of the borrowers of the Company will be critical for maintaining reduced NPA levels. The NPA levels may temporarily increase due to cashflow issues with the borrowers. We may be impacted by volatility in interest rates or adverse market scenario which could cause our Gross Spreads to decline and consequently affect our profitability.

We are exposed to interest rate risks as a result of lending to customers at fixed/ floating interest rates and in amounts and for periods which may differ from our funding sources. While we seek to match our interest rate positions to minimise interest rate risk, we are unable to assure you that significant variation in interest rates or adverse market scenario will not have an effect on our results of operations. Moreover, volatility in interest rates is sensitive to factors which are beyond our control, including the monetary policies of the RBI, deregulation of the financial sector in India, domestic and international economic and political conditions, inflation and other such considerations. In a rising interest rate environment, if the yield on our interest-earning assets does not increase simultaneously with or to the same extent as our cost of funds, or, in a declining interest rate environment, if our cost of funds does not decline simultaneously or to the same extent as the yield on our interest-earning assets, our net interest income and net interest margin would be adversely impacted.

There can be no assurance that we will be able to adequately manage our interest rate risk in the future and any significant increase in interest rates would adversely affect our business and results of operations.

2. We are subjected to supervision and regulation by the RBI as a systemically important NBFC, and changes in RBI's regulations governing us could adversely affect our business.

Being an NBFC, the operations of the Company are subject to various regulations prescribed by the RBI and other statutory authorities including regulations relating to foreign investment in India. Pursuant to the regulatory framework for NBFCs issued by RBI Master Direction NBFC-SI-ND Directions, 2016- RBI/DNBR/2016-17/45 Master Direction DNBR.PD.CC.No.086/03.10.001 dated September 01, 2016 (Updated as on February 17, 2020), the Company has been classified as a Systemically Important Non Deposit Accepting NBFC. Pursuant to the aforesaid circular, among other things, NBFCs will be required to consider a term loan inclusive of unpaid interest as non-performing asset if it is overdue for period of 3 months or more or on which interest amount remained overdue for period of 3 months or more and in respect of demand or call loan which remained overdue for period of 3 months or more from the date of demand or call or on which interest amount remained overdue for period of 3 months or more. Provisions for standard assets has 0.23% per cent by end of March 31, 2020. The Company is required to maintain a CAR of 15% besides complying with other Prudential Norms, directions and the requirements under the revised regulatory framework. Compliance with many of the regulations applicable to the Company across jurisdictions including any restrictions on investments and other activities currently being carried out by the Company involve a number of risks, particularly in areas where applicable regulations may be subject to varying interpretations. If the interpretation of the regulators and authorities varies from our interpretation, we may be subject to penalties and the business of the Company

could be adversely affected. Further, the RBI's may amend regulations/ guidelines applicable to NBFCs in future which may require us to restructure our activities, incur additional cost or could otherwise adversely affect our business and our financial performance.

While the RBI has not provided for any restriction on interest rates that can be charged by non -deposit taking NBFCs but there can be no assurance that the RBI and/or the Government will not implement regulations or policies, including policies or regulations or legal interpretations of existing regulations, relating to or affecting interest rates, taxation, inflation or exchange controls, or otherwise take action, that could have an adverse effect on non-deposit taking NBFCs. In addition, there can be no assurance that any changes in the laws and regulations relative to the Indian financial services industry will not adversely impact our business.

3. Our ability to borrow from various banks may be restricted on account of guidelines issued by the RBI imposing restrictions on banks in relation to their exposure to NBFCs.

The RBI in its notification (No. RBI/2006-07/205/DBOD.No. FSD.BC.46 / 24.01.028 /2006-07) dated December 12, 2006 has amended the regulatory framework governing banks to address concerns arising from divergent regulatory requirements for banks and NBFCs. This notification reduces the exposure (both lending and investment, including off balance sheet exposures) of a bank to NBFCs like us. Accordingly, banks' exposure limits on any NBFC are reduced from the 25% of the banks' capital funds to 10% of its capital funds. Furthermore, RBI has suggested that banks may consider fixing internal limits for their aggregate exposure to all NBFCs combined. This notification limits a bank's exposure to NBFCs which consequently restricts our ability to borrow from banks and thereby increasing the cost of our borrowing.

This notification has adversely affected our business and any similar notifications released by the RBI in the future, which has a similar impact on our business could affect our growth, margins and business operations.

Under the various schemes announced by the government for NBFCs, the impact on liquidity of the NBFCs depends majorly on the successful implementation of these by the Banks/ FIs.

4. Our ability to lend against security of shares may be restricted on account of guidelines issued by RBI, which may have a negative impact on our business and results of operation.

As per RBI Master Direction NBFC-SI-ND Directions, 2016- RBI/DNBR/2016-17/45 Master Direction DNBR.PD.CC.No.086/03.10.001 dated September 01, 2016 (Updated as on February 17, 2020) has restricted 'Loan against Shares' business undertaken by NBFCs. Some of the requirements of such circular are: a. LTV ratio should not exceed 50%, and shall be maintained at all times. Any shortfall in the maintenance of the 50% LTV occurring on account of movement in the share price shall be made within 7 working days, b. In case where lending is done for investment in capital market, only Group 1 securities can be accepted as collateral for loans of value more than Rs.5 lakh subject to review by RBI, and c. to report on-line to stock exchanges, information on the shares pledged in favor of NBFC, by borrowers for availing loans. At this point, we cannot assure you that this notification and its applicability to us will not have a material and adverse effect on our future financial conditions and results of operations.

5. Our business requires substantial capital, and any disruption in funding sources would have a material adverse effect on our liquidity and financial condition.

Our liquidity and ongoing profitability are, in large part, dependent upon our timely access to, and the costs associated with, raising capital. Our funding requirements historically have been met from a combination of borrowings such as term loans and working capital limits from banks and issuance of commercial paper, non-convertible debentures on private placement basis and equity on right issue basis. Thus, our business depends and will continue to depend on our ability to access diversified low-cost funding sources.

The RBI Master Direction NBFC-SI-ND Directions, 2016- RBI/DNBR/2016-17/45 Master Direction DNBR.PD.CC.No.086/03.10.001 dated September 01, 2016 (Updated as on February 17, 2020) issued certain guidelines to NBFCs with respect to raising of money through private placement by them in the form of non -convertible debentures. These guidelines include restrictions on the minimum subscription amount for a single investor of Rs. 20,000, prohibition on providing loan against the security of its own debentures, etc. This has resulted in limiting the Company's ability to raise fresh debentures on private placement basis. Such changes in laws of the country applicable to our company can disrupt funding sources which would have a material adverse effect on our liquidity and financial condition.

6. The financing industry is becoming increasingly competitive and our growth will depend on our ability to compete effectively.

The sector in which we operate is highly competitive and we face significant competition from banks and other NBFCs. Many of our competitors are larger institutions, which may have much larger customer and funding sources, larger branch networks and more capital than we do. Some of our competitors may be more flexible and better-positioned to take advantage of market opportunities. In particular, private banks in India and many of our competitors outside of India may have operational advantages in implementing new technologies and rationalizing branches. These competitive pressures affect the industry in which we operate as a whole, and our future success will depend in large part on our ability to respond in an effective and timely manner to these competitive pressures.

Unlike commercial banks, we do not have access to funding from savings and current deposits of customers. Instead, we are reliant on higher cost syndicated loans and debentures for our funding requirements, which may reduce our margins compared to competitors. Our ability to compete effectively with commercial banks will depend, to some extent, on our ability to raise low-cost sources of funding in the future. If we are unable to compete effectively with other participants in the loan against security/property industry, our business, future financial performance and the trading price of the NCDs may be adversely affected.

Due to COVID -19 pandemic resulting in nation-wide lockdown, has impacted the growth prospects of the Company due to overall economic slowdown across all business segments. The growth strategies will have to be re-calibrated considering the revised economic scenarios.

7. Contingent Liability

The Company's contingent liabilities could adversely affect its financial condition. As on March 31, 2020, the Company had contingent liabilities of Rs 21.60 Crore on account of financial and other guarantees and other contingent liabilities.

8. We rely to some extent on Centrum Wealth Management Limited team and Centrum Broking Limited team, for our clientele, distribution network, connect and marketing to HNI and other investors connected to Centrum Wealth Management and Centrum Broking Limited that we enjoy in the industry and our brand name and any factor affecting the business and reputation, performance and strength of distribution capability of Centrum Wealth Management team or Centrum Broking team may have a concurrent adverse effect on our business and results of operations.

We source our clients inter alia from Centrum Wealth Management team and also significantly benefit from the goodwill that Centrum Wealth Management team enjoys in the market. We believe that this goodwill ensures a steady inflow of business. In the event Centrum Wealth Management team is unable to maintain the quality of its services or its goodwill deteriorates for any reason whatsoever, our business and results of operations may be adversely affected. We operate in a competitive environment, and we believe that our brand recognition is a significant competitive advantage to us. Any failure to retain our Company name may deprive us of the associated brand equity that we have developed which may have a material adverse effect on our business and operations.

9. If we are unable to manage our rapid growth effectively, our business and financial results could be adversely affected.

A principal component of our strategy is to continue to grow by expanding the size and geographical scope of our businesses. This growth strategy will place significant demands on our management, financial and other resources. It will require us to continuously develop and improve our operational, financial and internal controls. Continuous expansion increases the challenges involved in financial management, recruitment, training and retaining high quality human resources, preserving our culture, values and entrepreneurial environment, and developing and improving our internal administrative infrastructure. Failure to train our employees properly may result in an increase in employee attrition rates, require additional hiring, erode the quality of customer service, divert management resources, increase our exposure to high-risk credit and impose significant costs on us. If we grow our loan book too rapidly or fail to make proper assessments of credit risks associated with new borrowers, a higher percentage of our loans may become non-performing, which would have a negative impact on the quality of our assets and our financial condition. Any inability on our part to manage such growth could disrupt our business prospects, impact our financial condition and adversely affect our results of operations.

The business of customers is temporarily impacted due to the recent Covid-19 Pandemic. This may result in temporary deterioration in customer credit and impact on their operational and financial performance. Thus the growth of the company with new credit disbursements has to be done cautiously.

10. Our growth will depend on our continued ability to access funds at competitive rates which are dependent on a number of factors including our ability to maintain our credit ratings.

As we are a “systemically important non-deposit accepting” NBFC and do not have access to deposits, our liquidity and ongoing profitability are primarily dependent upon our timely access to, and the costs associated with raising capital. Our business is significantly dependent on funding from the debt capital markets and commercial borrowings. The demand for such funds is competitive and our ability to obtain funds at competitive rates will depend on various factors including our ability to maintain positive credit ratings. Ratings reflect a rating agency’s opinion of our financial strength, operating performance, strategic position, and ability to meet our obligations. In relation to our long-term debt instruments, we currently have long term ratings of “CARE A- with Negative Outlook” from Care Ratings Limited. Any downgrade of our credit ratings would increase borrowing costs and constrain our access to capital and debt markets and, as a result, would negatively affect our net interest margin and our business. In addition, downgrades of our credit ratings could increase the possibility of additional terms and conditions being added to any additional financing or refinancing arrangements in the future. Any such adverse development could adversely affect our business, financial condition and results of operations.

Our business depends and will continue to depend on our ability to access diversified funding sources. Changes in economic and financial conditions or continuing lack of liquidity in the market could make it difficult for us to access funds at competitive rates. As an NBFC, we also face certain restrictions on our ability to raise money from international markets which may further constrain our ability to raise funds at attractive rates. While our borrowing costs have been competitive in the past due to our ability to raise debt products, credit rating and our asset portfolio, in the event we are unable to access funds at an effective cost that is comparable to or lower than our competitors, we may not be able to offer competitive interest rates for our loans. This may adversely impact our business and results of operations.

11. We face asset-liability mismatches which could affect our liquidity and consequently may adversely affect our operations and profitability.

We may face potential liquidity risks due to varying periods over which our assets and liabilities mature. As is typical for NBFCs, a portion of our funding requirements is met through short-term funding sources such as bank loans, working capital demand loans, cash credit, short term loans and commercial papers. Our inability to obtain additional credit facilities or renew our existing credit facilities, in a timely and cost-effective manner or at all, may lead to mismatches between our assets and liabilities, which in turn may adversely affect our operations and financial performance.

During the COVID 19 lockdown RBI has indicated various packages for extending moratorium to Borrowers for 6 months from Mar'20 to Aug'20. The lenders to the Company are still contemplating to extend the moratorium to NBFC's. Thus there is a cashflow impact on Company which may lead to temporary asset liability mismatch for the Company

12. We extend loans against shares, and loan against properties or a combination of both to our clients, and any default by a client coupled with a downturn in the stock markets could result in substantial losses for us.

We extend “loans against shares”, or margin funding loans, which are secured by liquid, marketable securities at appropriate or pre-determined margin levels. Recently as per RBI Master Direction NBFC-SI-ND Directions, 2016- RBI/DNBR/2016-17/45 Master Direction DNBR.PD.CC.No.086/03.10.001 dated September 01, 2016 (Updated as on February 17, 2020) has restricted ‘Loan against Shares’ business undertaken by NBFCs. Some of the requirements of such circular are: (a) LTV ratio should not exceed 50%, and only Group 1 securities can be accepted as collateral for loans of value more than Rs.5 lakh subject to review by RBI. In the event of a volatile stock market or adverse movements in stock prices, the collateral securing the loans may decrease significantly in value, resulting in LTV to fall below the prescribed limit of 50% and consequential losses which we may not be able to support. Customers may default on their obligations to us as a result of various factors including bankruptcy, lack of liquidity, lack of business and operational failure. There is little financial information available about the creditworthiness of our customers. It is therefore difficult to carry out precise credit risk analysis on our clients. Although we use a technology-based risk management system and follow strict internal risk management guidelines on portfolio

monitoring, which include limits on the amount of margin, the quality of collateral provided by the client and pre-determined margin call thresholds, no assurance can be given that if the financial markets witnessed a significant single-day or general downturn, our financial condition and results of operations would not be adversely affected.

13. We do not own the premises where our branch office(s) is/are located and in the event our rights over the properties is not renewed or is revoked or is renewed on terms less favourable to us, our business activities may be disrupted.

At present we do not own the premises for our branch office(s). In the event the owner of the premises revokes the consent granted to us or fails to renew the tenancy, we may suffer disruption in our operations for certain periods of time.

14. We require several licenses and approvals for our business and in the event we are unable to procure or renew them in time or at all, our business may be adversely affected.

We require several licenses, approvals and registration in order to undertake our business activities. These registrations include registrations with the RBI as a systemically important non-deposit taking NBFC. We are also required to maintain licenses under various state Shops and Establishment Acts for some of our offices. Failure by us to comply with the terms and conditions to which such permits or approvals are subject, and/or to renew, maintain or obtain the required permits or approvals may result in the interruption of our operations and may have a material adverse effect on our business, financial condition and results of operations.

15. A decline in our capital adequacy ratio could restrict our future business growth

Pursuant to the revised regulatory framework for NBFCs issued by RBI, vide its RBI Master Direction NBFC-SI-ND Directions, 2016- RBI/DNBR/2016-17/45 Master Direction DNBR.PD.CC.No.086/03.10.001 dated September 01, 2016 (Updated as on February 17, 2020), all systemically important non-deposit taking NBFCs have to maintain a minimum capital ratio, consisting of Tier I and Tier II capital, which shall not be less than 15% of its aggregate risk weighted assets on balance sheet and risk adjusted value of off-balance sheet items and Tier I capital of 10% by March, 2018. On an unaudited basis, our capital adequacy ratio computed on the basis of applicable RBI requirements was 25.33 % as of March 31, 2020, with Tier I capital being 23.49% and Tier II Capital being 1.84 % If we continue to grow our loan portfolio and asset base, we will be required to raise additional Tier I and Tier II capital in order to continue to meet applicable capital adequacy ratios with respect to our business. There can be no assurance that we will be able to raise adequate additional capital in the future on terms favourable to us or at all, and this may adversely affect the growth of our business.

16. We may have to comply with stricter regulations and guidelines issued by regulatory authorities in India.

We are regulated principally by and have reporting obligations to the RBI. We are also subject to the corporate, taxation and other laws in effect in India. Moreover, new regulations may be passed that restrict our ability to do business. For example, regulatory restrictions on securitisation may be extended to bilateral assignment transactions, resulting in loss of arbitrage options.

We cannot assure you that we will not be subject to any adverse regulatory action in the future. Further, these regulations are subject to frequent amendments and depend upon government policy. The costs of compliance may be high, which may affect our profitability. If we are unable to comply with any such regulatory requirements, our business and results of operations may be materially and adversely affected.

17. We are subject to certain restrictive covenants in our loan/ funding documents, which may restrict our operations and ability to grow and may adversely affect our business.

There are restrictive covenants in the agreements we have entered into with our lenders. These restrictive covenants require us to maintain certain financial ratios and seek the prior permission of these banks/financial institutions for various activities, including, amongst others, selling, leasing, transferring or otherwise disposing of any part of our business or revenues, effecting any scheme of amalgamation or reconstitution, implementing a new scheme of expansion, taking up an allied line of business or making any amendments to Memorandum and Articles of Association etc. Such restrictive covenants in our loan documents may restrict our operations or ability to expand and may adversely affect our business.

18. Our success depends in large part upon our management team and key personnel and our ability to attract, train and retain such persons. Our inability to attract and retain talented professionals, or the resignation or loss of key management personnel, may have an adverse impact on our business and future financial performance.

Our ability to sustain our rate of growth depends significantly upon our ability to manage key issues such as selecting and retaining key managerial personnel, developing managerial experience to address emerging challenges and ensuring a high standard of client service. In order to be successful, we must attract, train, motivate and retain highly skilled employees, especially branch managers and product executives. If we cannot hire additional qualified personnel or retain them, our ability to expand our business will be impaired and our revenue could decline. We will need to recruit new employees, who will have to be trained and integrated into our operations. We will also have to train existing employees to adhere properly to internal controls and risk management procedures. Failure to train and motivate our employees properly may result in an increase in employee attrition rates, require additional hiring, erode the quality of customer service, divert management resources, increase our exposure to high-risk credit and impose significant costs on us. Hiring and retaining qualified and skilled managers are critical to our future, as our business model depends on our credit-appraisal and asset valuation mechanism, which are personnel-driven operations. Moreover, competition for experienced employees can be intense. While we have an incentive structure and an Employee Incentive Plan/ ESOP designed to encourage employee retention, our inability to attract and retain talented professionals, or the resignation or loss of key management personnel, may have an adverse impact on our business and future financial performance.

Due to COVID-19 nationwide lockdown, all offices across the country were temporarily closed and all employees were continuing their services from home. In this scenario, keeping the employees motivated is a challenge and also the sales and marketing teams are refrained for approaching the prospective clients / borrowers. This would have temporary impact on the company's operational performance.

19. We may not be able to successfully sustain our growth plans.

In recent years, our growth has been fairly substantial. Our growth plan includes growing our secured lending, expanding our customer base and presence. There can be no assurance that we will be able to sustain our growth plan successfully or that we will be able to expand further or diversify our product portfolio. If we grow our loan book too rapidly or fail to make proper assessments of credit risks associated with new borrowers, a higher percentage of our loans may become non-performing, which would have a negative impact on the quality of our assets and our financial condition.

We also face a number of operational risks in executing our growth strategy. Our branch network has expanded as part of our growth strategy. Our rapid growth exposes us to a wide range of increased risks, including business and operational risks, such as the possibility of growth of NPAs, fraud risks and regulatory and legal risks.

Our ability to sustain our rate of growth also significantly depends upon our ability to recruit trained and efficient personnel and retain key managerial personnel, maintain effective risk management policies, continuing to offer products which are relevant to our target base of clients, developing managerial experience to address emerging challenges and ensuring a high standard of client service. As we grow we will need to recruit new employees, who will have to be trained and integrated into our operations. We will also have to train existing employees to adhere properly to internal controls and risk management procedures. Failure to integrate our employees properly may result in an increase in employee attrition rates, erode the quality of customer service, divert management resources, increase our exposure to high-risk credit and impose significant costs on us.

Due to COVID -19 pandemic resulting in nationwide lockdown, has impacted the growth prospects of the Company due to overall economic slowdown across all business segments. The growth strategies will have to be re-calibrated considering the revised economic scenarios.

20. Our insurance coverage may not adequately protect us against losses.

We maintain certain insurance coverage that we believe is adequate for our operations/ purposes. Our insurance policies, however, may not provide adequate coverage in certain circumstances and are subject to certain deductible s, exclusions and limits on coverage. We cannot, however, assure you that the terms of our insurance policies will be adequate to cover any

damage or loss suffered by us or that such coverage will continue to be available on reasonable terms or will be available in sufficient amounts to cover one or more large claims, or that the insurer will not disclaim coverage as to any future claim.

A successful assertion of one or more large claims against us that exceeds our available insurance coverage or changes in our insurance policies, including premium increases or the imposition of a larger deductible or co - insurance requirement, could adversely affect our business, financial condition and results of operations.

21. Any change in control of our Promoter or our Company may correspondingly adversely affect our operations and profitability.

As on March 31, 2020, the Promoter holds 100% equity capital of the Company. Any change in control of the Promoter / Promoter Group may have an adverse effect on the operations of the Company including influencing the policies of the Company.

22. Our ability to assess, monitor and manage risks inherent in our business differs from the standards of some of our counterparts.

We are exposed to a variety of risks, including liquidity risk, interest rate risk, credit risk, operational risk and legal risk. The effectiveness of our risk management is limited by the quality and timeliness of available data. Our hedging strategies and other risk management techniques may not be fully effective in mitigating our risks in all market environments or against all types of risk, including risks that are unidentified or unanticipated. Some methods of managing risks are based upon observed historical market behaviour. As a result, these methods may not predict future risk exposures, which could be greater than the historical measures indicated. Other risk management methods depend upon an evaluation of information regarding markets, customers or other matters. This information may not in all cases be accurate, complete, up-to-date or properly evaluated. Management of operational, legal or regulatory risk requires among other things, policies and procedures properly to record and verify a number of transactions and events. Although we have established these policies and procedures, they may not be fully effective.

Our future success will depend, in part, on our ability to respond to new technological advances and emerging banking and housing finance industry standards and practices on a cost-effective and timely manner. The development and implementation of such technology entails significant technical and business risks. There can be no assurance that we will be able to successfully implement new technologies or adapt its transaction processing systems to customer requirements or emerging market standards.

23. Our Company is exposed to many operational risks which could materially impact our business and results of operations.

Our Company is exposed to many types of operational risks. Operational risk can result from a variety of factors, including failure to obtain proper internal authorizations, improperly documented transactions, failure of operational and information security procedures, computer systems, software or equipment, fraud, inadequate training and employee errors. We attempt to mitigate operational risk by maintaining a comprehensive system of internal controls, establishing systems and procedures to monitor transactions, maintaining key back-up procedures, undertaking regular contingency planning and providing employees with continuous training. Any failure to mitigate such risks could adversely affect our business and results of operations.

24. High levels of customer defaults could adversely affect our business, financial condition and results of operations.

We are subject to customer default risks including default or delay in repayment of principal or interest on our loans. Customers may default on their obligations to us as a result of various factors including bankruptcy, lack of liquidity, lack of business and operational failure. If borrowers fail to repay loans in a timely manner or at all, our financial condition and results of operations will be adversely impacted.

25. Significant fraud, system failure or calamities could adversely impact our business.

We seek to protect our computer systems and network infrastructure from physical break-ins as well as fraud and system failures. Computer break-ins and power and communication disruptions could affect the security of information stored in and

transmitted through our computer systems and network infrastructure. We employ security systems, including firewalls and password encryption, designed to minimize the risk of security breaches. Although we intend to continue to implement security technology and establish operational procedures to prevent fraud, break-ins, damage and failures, there can be no assurance that these security measures will be adequate. A significant failure of security measures or operational procedures could have a material adverse effect on our business and our future financial performance. Although we take adequate measures to safeguard against system-related and other frauds, there can be no assurance that it would be able to prevent frauds.

We are exposed to many types of operational risks, including the risk of fraud or other misconduct by employees and unauthorized transactions by employees. Although we have been careful in recruiting all our employees, we have in the past been held liable for the fraudulent acts committed by our employees adversely impacting our business. Our reputation could be adversely affected by significant frauds committed by employees, customers or outsiders.

26. We depend on the accuracy and completeness of information about customers and counterparties which may adversely affect our reputation and business.

In deciding whether to extend credit or enter into other transactions with customers and counterparties, we may rely on information furnished to us by or on behalf of customers and counterparties, including financial statements and other financial information. We may also rely on certain representations as to the accuracy and completeness of that information and, with respect to financial statements, on reports of independent auditors. For example, in deciding whether to extend credit, we may assume that a customer's audited financial statements conform to generally accepted accounting principles and present fairly, in all material respects, the financial condition, results of operations and cash flows of the customer. Our financial condition and results of operations could be negatively affected by relying on financial statements that do not comply with generally accepted accounting principles or other information that is materially misleading.

Moreover, we have implemented KYC norms and other measures, to prevent money laundering. In the event of ineffectiveness of these norms and systems, our reputation, business and results of operations may be adversely affected.

27. Inaccurate appraisal of credit may adversely impact our business.

We may be affected by failure of employees to comply with internal procedures and inaccurate appraisal of credit or financial worth of our clients. Inaccurate appraisal of credit may allow a loan sanction which may eventually result in a bad debt on our books of accounts. In the event we are unable to check the risks arising out of such lapses, our business and results of operations may be adversely affected.

28. We have entered into some related party transactions and may continue to enter into related party transactions, which may involve conflict of interest.

Our Company enters into transactions with the related parties in the ordinary course of business pursuant to the applicable provisions of the Companies Act, 2013. Such transactions may give rise to current or potential conflicts of interest with respect to dealings between us and such related parties.

29. Our Group Companies may be subject to certain legal proceedings and we cannot assure you that we will be successful in all of these actions. In the event we are unsuccessful in litigating any or all of the disputes, our business and results of operations may be adversely affected.

Our group companies may be subject to a number of legal proceedings. We may incur a substantial cost in defending these proceedings before a court of law. Moreover, we are unable to assure you that we shall be successful in any or all of these actions. In the event we suffer any adverse order, our reputation may suffer and may have an adverse impact on our business and results of operations.

External Risk Factors:

30. Our results of operations have been, and may continue to be, adversely affected by Indian and international financial market and economic conditions.

Our business is highly dependent on Indian and international markets and economic conditions. Such conditions in India include fluctuations in interest rates; changes in consumer spending; the level of consumer confidence; housing prices; corporate or other scandals that reduce confidence in the financial markets, among others. International markets and economic conditions include the liquidity of global financial markets, the level and volatility of debt and equity prices and interest rates, investor sentiment, inflation, the availability and cost of capital and credit, and the degree to which international economies are expanding or experiencing recessionary pressures. The independent and/or collective fluctuation of these conditions can directly and indirectly affect demand for our lending finance and other financial products, or increase the cost to provide such products.

Global financial markets were and continue to be extremely volatile and were materially and adversely affected by a significant lack of liquidity, decreased confidence in the financial sector, disruptions in the credit markets, reduced business activity, rising unemployment, declining home prices and erosion of consumer confidence.

These factors have contributed to and may continue to adversely affect our business, financial condition and results of operations.

31. *Financial difficulties and other problems in certain financial institutions in India could cause our business to suffer and adversely affect our results of operations.*

We are exposed to the risks of the Indian financial system, which in turn may be affected by financial difficulties and other problems faced by certain Indian financial institutions. Certain Indian financial institutions have experienced difficulties during recent years. There has been a trend towards consolidation with weaker banks and NBFCs being merged with stronger entities. The problems faced by individual Indian financial institutions and any instability in or difficulties faced by the Indian financial system generally could create adverse market perception about Indian financial institutions, banks and NBFCs. This in turn could adversely affect our business, our future financial performance, our shareholders' funds and the market price of our NCDs.

32. *Terrorist attacks, civil unrest and other acts of violence or war involving India and other countries could adversely affect the financial markets and our business.*

Terrorist attacks and other acts of violence or war may negatively affect our business and may also adversely affect the worldwide financial markets. These acts may also result in a loss of business confidence. In addition, any deterioration in relations between India and its neighboring countries might result in investor concern about stability in the region, which could adversely affect our business.

India has also witnessed civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic and political events in India could have a negative impact on us. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse impact on our business and the market price of our NCDs.

33. *Natural calamities could have a negative impact on the Indian economy, particularly the agriculture sector, and cause our business to suffer.*

India has experienced natural calamities such as earthquakes, a tsunami, floods and drought in the past few years. The extent and severity of these natural disasters determines their impact on the Indian economy. The erratic progress of the monsoon in 2012 affected sowing operations for certain crops. Further, prolonged spells of below normal rainfall or other natural calamities could have a negative impact on the Indian economy thereby, adversely affecting our business.

34. *Any downgrading of India's debt rating by an international rating agency could have a negative impact on our business.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, the interest rates and other commercial terms at which such additional financing is available. This could have a material adverse effect on our business and financial performance, our ability to raise financing for onward lending and the price of our NCDs.

35. Instability of economic policies and the political situation in India could adversely affect the fortunes of the industry.

There is no assurance that the liberalization policies of the government will continue in the future. Protests against privatization could slow down the pace of liberalization and deregulation. The Government of India plays an important role by regulating the policies and regulations that govern the private sector. The current economic policies of the government may change at a later date. The pace of economic liberalization could change and specific laws and policies affecting the industry and other policies affecting investments in our Company's business could change as well. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India and thereby affect our Company's business.

Unstable domestic as well as international political environment could impact the economic performance in the short term as well as the long term. The Government of India has pursued the economic liberalization policies including relaxing restrictions on the private sector over the past several years. The present Government has also announced policies and taken initiatives that support continued economic liberalization.

The Government has traditionally exercised and continues to exercise a significant influence over many aspects of the Indian economy. Our Company's business may be affected not only by changes in interest rates, changes in Government policy, taxation, social and civil unrest but also by other political, economic or other developments in or affecting India.

36. Companies operating in India are subject to a variety of central and state government taxes and surcharges.

Tax and other levies imposed/to be imposed by the central and state governments in India that affect our tax liability include: (i) central and state taxes and other levies; (ii) income tax; (iii) value added tax; (iv) turnover tax; (v) service tax; (vi) stamp duty; (vii) GST and (viii) other special taxes and surcharges which are introduced on a temporary or permanent basis from time to time. Moreover, the central and state tax scheme in India is extensive and subject to change from time to time. For example, a Direct tax code is proposed to be introduced in the Indian Parliament.

The statutory corporate income tax in India, which includes a surcharge on the tax and an education cess on the tax and the surcharge could change. The central or state government may in the future increase the corporate income tax it imposes. Any such future increases or amendments may affect the overall tax efficiency of companies operating in India and may result in significant additional taxes becoming payable. Additional tax exposure could adversely affect our business and results of operations.

37. Financial instability in other countries could disrupt our business.

The Indian market and the Indian economy are influenced by economic and market conditions in other countries. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the economy as a whole, in other countries, including India. A loss of investor confidence in the financial systems of other emerging markets may cause volatility in Indian financial markets and indirectly, in the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy, including the movement of exchange rates and interest rates in India.

In the event that the current difficult conditions in the global credit markets continue or if the recovery is slower than expected or if there any significant financial disruption, this could have an adverse effect on our cost of funding, loan portfolio, business, prospects, results of operations and financial condition.

38. There is no assurance that the NCDs issued pursuant to this Issue will be listed on Stock Exchanges in a timely manner, or at all.

In accordance with Indian law and practice, permissions for listing and trading of the NCDs issued pursuant to this Issue will not be granted until after the NCDs have been issued and allotted. Approval for listing and trading will require all relevant documents to be submitted and carrying out of necessary procedures with the Exchanges. There could be a failure or delay in listing the NCDs on the Stock Exchange for reasons unforeseen.

If permission to deal in and for an official quotation of the NCDs is not granted by the Stock Exchanges, our Company will forthwith repay, without interest, all monies received from the Applicants in accordance with prevailing law in this context, and pursuant to the Prospectus.

39. Foreign Investors, including FPIs subscribing to the NCDs are subject to risks in connection with (i) exchange control regulations, and, (ii) fluctuations in foreign exchange rates.

The NCDs will be denominated in Indian rupees and the payment of interest and Redemption Amount shall be made in Indian rupees. Various statutory and regulatory requirements and restrictions apply in connection with the NCDs held by FPIs (Exchange Control Regulations). The amounts payable to FPIs holding the NCDs, on redemption of the NCDs and/or the interest paid/payable in connection with such NCDs would accordingly be subject to prevailing Exchange Control Regulations. Any change in the Exchange Control Regulations may adversely affect the ability of such FPIs to convert such amounts into other currencies, in a timely manner or at all.

Further, fluctuations in the exchange rates between the Indian rupee and other currencies could adversely affect the amounts realized by FPIs on redemption or payment of interest on the NCDs by us.

40. The offering of NCDs to FPIs is subject to restrictions imposed by jurisdictions where such investors are resident in and of laws to which they are otherwise subject to.

FPIs who intend to participate in the Issue must comply with the laws, rules and regulations of the jurisdiction they are resident in and laws, rules and regulations to which they are otherwise subject to in connection with the purchase and sale of NCDs. No offer or sale of NCDs, pursuant to this Prospectus or otherwise, is being made in the United States or any other jurisdiction where it is unlawful to do so.

41. Outbreak of COVID-19 pandemic

'The outbreak of COVID-19 pandemic across the globe and in India has contributed to a significant impact and volatility in the global and Indian financial markets and slowdown in economic activities. The Reserve Bank of India (RBI) has issued guidelines relating to COVID-19 Regulatory Package on March 27, 2020, April 17, 2020 and 23 May 2020 and in accordance therewith, the Company has engaged with customers and offered repayment moratorium to various eligible borrowers classified as standard, even if the said amounts were overdue on February 29, 2020, excluding collections made in March 2020 prior to the offer. For all such accounts, where the moratorium is granted, the asset classification i.e. staging will remain at a standstill during the moratorium period (i.e., the number of days past due shall exclude the moratorium period for the purpose of asset classification as per the policy). Extension of such moratorium benefit to the borrowers as per the COVID-19 Regulatory Package of the Reserve Bank of India (RBI), by itself, is not considered to result in significant increase in the credit risk as per Ind AS 109 for staging of accounts. Further, the Company has considered the moratorium and various other measures taken by Government and regulators and have assessed that no further provisioning on account COVID 19 is required at this time in the Statement of Profit and Loss for the year ended March 31, 2020. Further, the Company expects that all other assets including Goodwill of the Company are recoverable and goodwill is not impaired. The impact of COVID -19 is dynamic, evolving and uncertain and impact assessment is based on the current situation.

4. Security in the form of exclusive charge on the project land and structure thereon (both present and future).
5. Hypothecation of present and future receivables
6. Escrow mechanism and cash-flow control.

v. MSME Finance

The ever burgeoning MSME space in the Indian economy is growing at a fascinating pace and is the focus of India's growth story. With the credit requirement growing, the SME sector provides a golden opportunity for CFSL. A deeper penetration of technology, priority sector benefits and higher returns make this sector attractive for CFSL. Following are the various beneficial considerations by CFSL for foraying in the MSME segment:

- 1) **Priority Sector Lending:** Priority sector lending is currently the flavor of the lending eco-system wherein regulatory norms support lenders in this space
- 2) **Under-Penetrated:** Only a few lenders have been able to penetrate deep into the multiple tiers of the Indian geography, leaving a huge segment ready to be served with good credit quality
- 3) **Retail Focus:** the retail segment of borrowers in the MSME space are those with a high level of credit discipline and keen understanding of various important aspect like cash-flow, operating profits, etc. A retail focus also enables hedging of risks that generally arise from large ticket corporate loans
- 4) **Secured & Unsecured Book Building:** The MSME book is proposed to be built with a combination of secured and unsecured business loan products to address different financing needs of Indian MSMEs and to drive optimal returns on the portfolio built.
- 5) **Higher Yield:** the retail portfolio entails a higher yield on the loan book due to various factors

- 6) **Sectoral Approach:** Targeting low delinquency and under-served segments to ensure sustainable growth and good credit quality
- 7) **Tier 2 & 3 Focus:** Focusing on a deeper penetration into the Tier 2 & 3 locations to ensure we tap into the Indian growth story of small cities and towns thereby contributing to “Make in India”.

CFSL intends to have customer-centric approach which includes customized offerings and quicker delivery times, all aided by a superior technology platform.

12. **Any change in accounting policies during the last three years and their effect on the profits and the reserves of the Issuer**

First-time adoption of Ind AS

Transition from IGAAP to Ind AS from FY 2019-20

These are the Company's first financial statements prepared in accordance with Ind AS.

The accounting policies set out have been applied in preparing the financial statements for the year ended March 31, 2020 the comparative information presented in these financial statements for the year ended March 31, 2019 and in the preparation of an opening Ind AS balance sheet at April 1, 2018 (the Company's date of transition). In preparing its opening Ind AS balance sheet, the Company has adjusted the amounts reported previously in financial statements prepared in accordance with the accounting standards notified under Companies (Accounting Standards) Rules, 2006 (as amended) and other relevant provisions of the Act (previous GAAP or Indian GAAP or IGAAP). An explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows is set out in the following tables and notes.

a) Optional exemptions availed

Ind AS 101 'First Time Adoption of Indian Accounting Standards' allows first-time adopters certain voluntary exemptions from the retrospective application of certain requirements under Ind AS. The Company has applied the following exemptions:

- Deemed cost for property, plant and equipment

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition. Accordingly, the Company has elected to measure all of its property, plant and equipment at their previous GAAP carrying value.

- Business combination

Ind AS 101 provides the option to apply Ind AS 103 prospectively from the transition date or from a specific date prior to the transition date. This provides relief from full retrospective application that would require restatement of all business combinations prior to the transition date.

The Company has elected to apply Ind AS 103 prospectively to business combinations occurring after its transition date. Business combinations occurring prior to the transition date have not been restated.

ii) Leases

Appendix C to Ind AS 17 requires an entity to assess whether a contract or arrangement contains a lease. In accordance with Ind AS 17, this assessment should be carried out at the inception of the contract or arrangement. Ind AS 101 provides an option to make this assessment on the basis of facts and circumstances existing at the date of transition to Ind AS, except where the effect is expected to be not material.

The company has elected to apply this exemption for such contracts/arrangements.

b) Ind AS mandatory exceptions

The Company has applied the following exceptions from full retrospective application of Ind AS as mandatorily required under Ind AS 101:

- Estimates

On an assessment of the estimates made under previous GAAP the Company has concluded that there was no necessity to revise the estimates under Ind AS except where estimates were required by Ind AS and not required by previous GAAP or the basis of measurement were different (e.g. impairment of loans and other assets as per expected credit losses).

- De-recognition of financial assets and liabilities

Ind AS 101 requires a first-time adopter to apply the de-recognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS. However, Ind AS 101 allows a first-time adopter to apply the de-recognition requirements in Ind AS 109 retrospectively from a date of the entity's choosing, provided that the information needed to apply Ind AS 109 to financial assets and financial liabilities derecognised as a result of past transactions was obtained at the time of initially accounting for those transactions. The Company has elected to apply the de-recognition provisions of Ind AS 109 prospectively from the date of transition to Ind AS.

- Impairment of financial assets

Ind AS 101 requires an entity to use reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments were initially recognised and compare that to the credit risk at the date of transition to Ind AS. Basis this assessment, the Company has concluded that there is no significant increase in the credit risk since the initial recognition.

- Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets (eg. loans and investments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS. The Company has assessed financial assets at the date of transition and has classified all its investments as measured at fair value through profit and loss except for investments in equity shares of its associate which are measured at cost. Asset backed finance loan portfolio is measured at fair value through other comprehensive income and all other loans are measured at amortised cost.

c) Reconciliations between previous GAAP and Ind AS

Ind AS 101 requires a first time adopter to reconcile equity, total comprehensive income and cash flows for prior periods. The following tables represent the reconciliations from previous GAAP to Ind AS.

i) Reconciliation of Total equity between previous GAAP and Ind AS:

d) Notes to first-time adoption:**i. interest free lease deposits**

Under the previous GAAP, interest free lease security deposits (that are refundable in cash on completion of the lease term) are recorded at their transaction value. Under Ind AS, all financial assets are required to be initially recognised at fair value. Accordingly, the Company has fair valued these security deposits under Ind AS. The difference between the fair value and transaction value of the security deposit on initial recognition has been recognised as right to use. Subsequently, depreciation is charged to the statement of profit and loss for right to use over the tenure of the lease and unwinding of security deposit is credited to the statement of profit and loss as finance income.

ii. Loan assets

Under Indian GAAP, transaction income earned on loan assets was recognised upfront while under Ind AS, such income are included in the initial recognition amount of financial assets and recognised as interest income using the effective interest method.

iii. Ind AS 116 - leases

Under Indian GAAP, payments made under operating leases (net of any incentives received from the lessor) were charged to profit or loss on a straight-line basis over the period of the lease unless, the payments are structured to increase in line with expected general inflation, to compensate for the lessor's expected inflationary cost increases.

Ind AS 116 requires recognition of an asset (the right-of-use the leased item) and a financial liability to pay rentals. In the Statement of Profit and Loss, lessees presents interest expense on the lease liability and depreciation on the right-of-use asset.

iv. Borrowings and subordinated debt instruments

Under Indian GAAP, transaction costs incurred on debt instruments and borrowings was expensed over the tenure of the borrowing while under Ind AS, such costs are included in the initial recognition amount of financial liability and recognised as interest expense using the effective interest method.

v. financial guarantee given by parent

Under the previous GAAP, financial guarantee given by parent is not accounted. Under Ind AS, financial guarantee contracts are measured at initial recognition at fair value and accounted as contribution from parent with corresponding impact on the borrowing.

vi. Expected Credit loss

Under the previous GAAP, provisions against loans and advances were made as per the prudential norms specified by the RBI. In accordance with Ind AS 109, the Company is required to recognise provisions by applying the expected credit loss model. Accordingly, the Company has reversed all outstanding provisions created against advances under the previous GAAP and recognised an amount for expected credit losses on its loans and other financial assets with a corresponding adjustment to profit and loss and consequently, equity.

vii. Deferred tax

Under the Previous GAAP, the deferred tax was accounted based on timing differences impacting the Statement of Profit and Loss for the period. Deferred tax under Ind AS has been recognised for temporary differences between tax base and the book base of the relevant assets and liabilities. Deferred tax impact has been considered on the adjustments made on transition to Ind AS.

viii. Remeasurements of post-employment benefit obligations

Under Ind AS, remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognised in other comprehensive income instead of profit or loss. Under the previous GAAP, these remeasurements were forming part of the profit or loss for the year.

SECTION VII - OTHER INFORMATION AND ISSUE PROCEDURE

The Debentures being offered as part of the Issue are subject to the provisions of the Act, the Memorandum and Articles of Association of the Issuer, the terms of this Shelf Disclosure Document read with the relevant Supplemental Disclosure Document(s), the Application Form and other terms and conditions as may be incorporated in the Transaction Documents.

7.1 How to Bid

This Shelf Disclosure Document is neither a prospectus nor a statement in lieu of prospectus and does not constitute an offer to the public generally to subscribe for or otherwise acquire the Debentures issued by the Issuer. All Eligible Investors are required to register themselves as a one-time exercise (if not already registered) with the BSE EBP Platform for participating in electronic book building mechanism. Eligible Investors should refer the operating guidelines for issuance of securities on private placement basis through an electronic book mechanism as available on the website of BSE. Eligible Investors will also have to complete the mandatory know your customer verification process. Eligible Investors should refer to the BSE EBP Guidelines in this respect.

The details of the Issue shall be entered on the BSE EBP Platform by the Issuer at least 2 (two) Business Days prior to the Issue Opening Date, in accordance with the BSE EBP Guidelines.

The Issue will be open for bidding for the duration of the bidding window that would be communicated through the Issuer's bidding announcement on the BSE EBP Platform, at least 1 (one) Business Day before the start of the Issue Opening Date.

All Eligible Investors should note that the bidding mechanism for this Issue is a fixed price mechanism.

Some of the key guidelines in terms of the current BSE EBP Guidelines on issuance of securities on private placement basis through an EBP mechanism, are as follows:

(a) Modification of Bid

Eligible Investors may note that modification of bid is allowed during the bidding period or window. However, in the last 10 minutes of the bidding period or window, revision of bid is only allowed for upward revision of the bid amount placed or to improve the yield by the Eligible Investor.

(b) Cancellation of Bid

Eligible Investors may note that cancellation of bid is allowed during the bidding period or window. However, in the last 10 minutes of the bidding period or window, no cancellation of bids is permitted.

(c) Multiple Bids

Investors are permitted to place multiple bids on the BSE EBP Platform in line with the BSE EBP Guidelines and the SEBI EBP Circulars.

(d) Manner of bidding

The Bid book type will be through open book bidding on the BSE EBP Platform in line with the BSE EBP Guidelines and the SEBI EBP Circulars.

(e) Manner of allotment

The allotment will be done on uniform yield basis in line with the BSE EBP Guidelines and the SEBI EBP Circulars.

(f) Payment Mechanism and Manner of settlement

The Payment Mechanism and Settlement of the Issue will be done through ICCL.

Successful Eligible Investors should do the funds pay-in to any of the following bank accounts of ICCL ("Designated Bank Accounts"):

ICICI Bank :

Beneficiary Name: INDIAN CLEARING CORPORATION LTD
Account Number: ICCLEB
IFSC Code : ICIC000106
Mode: NEFT/RTGS

YES Bank :

Beneficiary Name: INDIAN CLEARING CORPORATION LTD
Account Number: ICCLEB
IFSC Code : YESBOCMSNOC
Mode: NEFT/RTGS

HDFC Bank

Beneficiary Name: INDIAN CLEARING CORPORATION LTD
Account Number: ICCLEB
IFSC Code : HDFC0000060
Mode: NEFT/RTGS

For the avoidance of doubt, Eligible Investors are requested to note that they are permitted to pay in the Application Money through any of the Designated Accounts. However, separate funds payment instructions shall be given by the Eligible Investors for other issues on the BSE EBP Platform. Funds payment for each issue on the BSE EBP Platform has to be initiated separately. The funds should not be clubbed for two different issues settling on the same day.

The information in respect of the Designated Bank Accounts shall be displayed in the front end of BSE EBP Platform and the same shall also be available in the obligation file downloaded to Eligible Investors.

Successful Eligible Investors must do the subscription amount payment to the Designated Bank Accounts on or before 10:30 a.m. on the Pay-in Date ("Pay-in Time"). Successful Eligible Investors should ensure to make payment of the subscription amount for the Debentures from their same bank account which is updated by them in the BSE EBP Platform while placing the bids. In case of mismatch in the bank account details between BSE EBP Platform and the bank account from which payment is done by the successful Eligible Investor, the payment would be returned.

Note: In case of failure of any successful Eligible Investor to complete the subscription amount payments by the Pay-in Time or the funds are not received in the ICCL's Designated Bank Accounts by the Pay-in Time for any reason whatsoever, the bid will liable to be rejected and the Issuer shall not be liable to issue the Debentures to such successful Eligible Investors.

Upon final allocation by the Issuer, the Issuer or the Registrar and Transfer Agent on behalf of the Issuer shall instruct the Depositories on the Pay-in Date, and the Depositories shall accordingly credit the allocated Debentures to the demat account of the successful Eligible Investor. The Issuer shall give the instruction to the Registrar and Transfer Agent for crediting the Debentures by 12:00 p.m. on the Pay-In Date. The Registrar shall provide corporate action file along with all requisite documents to Depositories by 12:00 p.m. on the Pay-In Date. On the Pay-In Date, the Depositories shall confirm to ICCL the transfer of Debentures in the demat account(s) of the successful Eligible Investors.

(g) Settlement cycle

The process of pay-in of funds by investors and pay-out to Issuer will be done on T+1 day, where T is the Issue Closing Date.

However, Eligible Investors should refer to the BSE EBP Guidelines prevailing on the date of the bid.

(h) Post Allocation Disclosures by the Issuer on BSE EBP Platform

Upon final allocation by the Issuer, the Issuer shall disclose the Total Issue Size, coupon rate, ISIN, number of successful bidders, category of the successful bidder(s), etc., in accordance with the SEBI EBP Circulars and BSE EBP Guidelines. The EBP shall upload such data, as provided by the Issuer, on its website to make it available to the public.

7.2 Mode of Transfer/Transmission of Debentures

The Debentures shall be transferable freely; however, it is clarified that no Investor shall be entitled to transfer the Debentures to a person who is not entitled to subscribe to the Debentures. The Debenture(s) shall be transferred and/or transmitted in

accordance with the applicable provisions of the Act and the Applicable Law. The Debentures held in dematerialized form shall be transferred subject to and in accordance with the rules/procedures as prescribed by NSDL/CDSL and the relevant DPs of the transferor or transferee and the Applicable Laws and rules notified in respect thereof. The transferee(s) should ensure that the transfer formalities are completed prior to the Record Date. In the absence of the same, amounts due will be paid/redemption will be made to the person, whose name appears in the register of debenture holders maintained by the R&T Agent as on the Record Date, under all circumstances. In cases where the transfer formalities have not been completed by the transferor, claims, if any, by the transferees would need to be settled with the transferor(s) and not with the Issuer. The normal procedure followed for transfer of securities held in dematerialized form shall be followed for transfer of these Debentures held in dematerialised form. The seller should give delivery instructions containing details of the buyer's DP account to his DP.

Transfer of the Debentures to and from His/ NRIs/ OCBs, in case they seek to hold the Debentures and are eligible to do so, will be governed by the then prevailing guidelines issued by RBI.

7.3 Debentures held in Dematerialised Form

The Debentures shall, be held in dematerialised form and no action is required on the part of the Debenture Holder(s) for redemption purposes and the redemption proceeds will be paid by cheque/fund transfer/RTGS to those Debenture Holder(s) whose names appear on the list of beneficiaries maintained by the R&T Agent. The names would be as per the R&T Agent's records on the relevant Record Date fixed for the purpose of redemption. All such Debentures will be simultaneously redeemed through appropriate debit corporate action.

The list of beneficiaries as of the relevant Record Date setting out the relevant beneficiaries' name and account number, address, bank details and DP's identification number will be given by the R&T Agent to the Issuer. If permitted, the Issuer may transfer payments required to be made in any relation by NEFT/RTGS to the bank account of the Debenture Holder(s) for redemption payments.

7.4 Debenture Trustee for the Debenture Holder(s)

The Issuer has appointed Beacon Trusteeship Limited to act as trustee for the Debenture Holder(s). The Issuer and the Debenture Trustee intend to enter into the Debenture Trustee Agreement and the Debenture Trust Deed *inter alia*, specifying the powers, authorities and obligations of the Debenture Trustee and the Issuer. The debenture trustee(s) has given its consent to the Issuer for its appointment under regulation 4 (4) of SEBI (Issue and Listing of Debt Securities) Regulations, 2008 and in all the subsequent periodical communications sent to the holders of debt securities, the consent so received from the Debenture Trustee is attached as **Annexure C** to this Shelf Disclosure Document. The Debenture Holder(s) shall, without further act or deed, be deemed to have irrevocably given their consent to the Debenture Trustee or any of its agents or authorized officials to do all such acts, deeds, matters and things in respect of or relating to the Debentures as the Debenture Trustee may in its absolute discretion deem necessary or require to be done in the interest of the Debenture Holder(s). Any payment made by the Issuer to the Debenture Trustee on behalf of the Debenture Holder(s) shall discharge the Issuer *pro tanto* to the Debenture Holder(s). The Debenture Trustee will protect the interest of the Debenture Holder(s) in regard to the repayment of principal and yield thereon and the Debenture Trustee will take necessary action, subject to and in accordance with the Debenture Trustee Agreement and the Debenture Trust Deed, at the cost of the Issuer. No Debenture Holder shall be entitled to proceed directly against the Issuer unless the Debenture Trustee, having become so bound to proceed, consistently fails to do so. The Debenture Trustee Agreement and the Debenture Trust Deed shall more specifically set out the rights and remedies of the Debenture Holder(s) and the manner of enforcement thereof.

7.5 Sharing of Information

The Issuer may, at its option, but subject to Applicable Law, use on its own, as well as exchange, share or part with any financial or other information about the Debenture Holder(s) available with the Issuer, with its subsidiaries and affiliates and other banks, financial institutions, credit bureaus, agencies, statutory bodies, as may be required and neither the Issuer nor its subsidiaries and affiliates nor their agents shall be liable for use of the aforesaid information.

7.6 Deemed Date of Allotment

All the benefits under the Debentures subscribed to by the Debenture Holders, will accrue to the Investor from the Deemed Date of Allotment provided for in the relevant Supplemental Disclosure Document issued in respect of the relevant Tranche/Series.

7.7 Debenture Holder not a Shareholder

The Debenture Holder(s) shall not be entitled to any right and privileges of shareholders other than those available to them under the Act. The Debentures shall not confer upon the Debenture Holders the right to receive notice(s) or to attend and to vote at any general meeting(s) of the shareholders of the Issuer.

7.8 Tax Deduction at Source (TDS)

Tax as applicable under the Income Tax Act, 1961, or any other statutory modification or re-enactment thereof will be deducted at source for which a certificate will be issued by the Company. As per the provisions of the Income Tax Act, 1961, no tax is deductible at source from the amount of interest payable on any listed dematerialised security, held by a person resident in India. Since the NCDs shall be issued in dematerialised mode and shall be listed on the WDM segment of BSE, no tax will be deductible at source on the payment/credit of interest/implicit yield on NCDs held by any person resident in India. In the event of rematerialisation of the NCDs, or NCDs held by person resident outside India or a change in Applicable Law governing the taxation of the NCDs, the following provisions shall apply:

1. In the event the NCDs are rematerialized and the Company is required to make a tax deduction, the Company shall make the payment required in connection with that tax deduction within the time allowed and in the minimum amount required by Applicable Law;
2. The Company shall within 30 (thirty) days after the due date of payment of any tax or other amount which it is required to pay, deliver to the Debenture Trustee evidence of such deduction, withholding or payment and of the remittance thereof to the relevant taxing or other authority.

Interest on application money shall be subject to TDS at the rates prevailing from time to time under the provisions of the Income Tax Act, 1961 or any other statutory modification or re-enactment thereof for which a certificate will be issued by the Company.

For seeking TDS exemption / lower rate of TDS, relevant certificate / document must be lodged by the Debenture Holder(s) at the Corporate Office of the Company at least 15 (Fifteen) days before the interest payment becoming due. Tax exemption certificate / declaration of non-deduction of tax at source on interest on application money should be submitted along with the Application Form.

For detailed tax implications of the investment in NCDs, Investors should get in touch with their tax consultant.

7.9 Object of the Issue and utilization of proceeds

The object of the Issue is to augment the long-term resources of the Company and to increase the average maturity period of its borrowings in compliance with the Applicable Laws.

The proceeds of the Issue would be utilised by the Company, *inter-alia*, for disbursements of loans to borrowers, refinancing existing borrowings, augmenting the working capital requirements of the Company, and for the general corporate purposes of the Company in compliance with the Applicable Laws.

7.10 Right of the Company to Purchase, Consolidate, Re-sell and Re-issue NCDs

1. Purchase and Resale of NCDs:

The Company may, subject to Applicable Law at any time and from time to time, at its sole and absolute discretion purchase some or all of the NCDs held by the Debenture Holders at any time prior to the specified date(s) of redemption / put / call as specified in the relevant Supplemental DD. Such buy-back of NCDs may be at par or at discount / premium to the face value at the sole discretion of the Company. The NCDs so purchased may, at the option of the Company, be cancelled, consolidated, held or resold in accordance with the provisions of the Applicable Law.

2. Reissue of Debentures

The Company shall have a right to repurchase the said Debentures or any of the Series of the Debentures and cancel or re-issue them from time to time in accordance with the provisions of the Act and Applicable Law. Upon such re-issue the person entitled to the Debentures shall have and shall be deemed always to have had, the same rights and priorities as if the Debentures had never been redeemed.

Where the Company has repurchased / redeemed any such NCDs, subject to the provisions the Companies Act, 2013 and other applicable legal provisions, the Company shall have and shall be deemed always to have had the right to keep such NCDs alive for the purpose of reissue and in exercising such right, the Company shall have and shall be deemed always to have had the power to reissue such NCDs either by reissuing the same NCDs or by issuing other NCDs in their place in either case, at such a price and on such terms and conditions (including any variations, dropping of or additions to any terms and conditions originally stipulated) as the Company may deem fit.

7.11 Modification of Rights

The Debenture Trustee and the Issuer will agree to make any modifications in this Shelf Disclosure Document or any Supplemental DD(s) which in the opinion of the Debenture Trustee is of a formal, minor or technical nature or is to correct a manifest error.

7.12 Variation of Debenture Holder(s) rights

The rights, privileges and conditions attached to the Debentures and this Shelf Disclosure Document and the relevant Supplemental DD(s) may be varied, modified or abrogated in accordance with the Articles of Association of the Company and the Act and with the consent of the Super Majority Debenture Holder(s). The rights, privileges and conditions attached to the Debentures of a particular Series/Tranche, may be varied, modified or abrogated in accordance with the Article of Association of the Company and the Act and with the consent of the Majority Debenture Holders of that Series/Tranche of Debentures. Provided that nothing in such resolution shall be operative against the Company where such resolution modifies or varies the terms and conditions governing the Debenture(s) if the same are not acceptable to the Company.

Provided that the Debenture Trustee and the Issuer may agree to make any modifications in this Shelf Disclosure Document or any Supplemental DD which in the opinion of the Debenture Trustee is of a formal, minor or technical nature or is to correct a manifest error.

7.13 Notices

The Company agrees to send notice of all meetings of the Debenture Holders specifically stating that the provisions for appointment of proxy as mentioned in Section 105 of the Companies Act, 2013 shall be applicable for such meeting. The notices, communications and writings to the Debenture Holder(s) required to be given by the Company shall be, deemed to have been given if sent by registered post or through recognized overnight courier service or by hand delivery to the sole / first allottee or sole/first registered Debenture Holder or be e-mail at the e-mail address provided by the Debenture Holder to his Depository Participant as the case may be at its address, registered with the Company.

All notices, communications and writings to be given by the Debenture Holder(s) shall be sent by registered post or through recognized courier service or by hand delivery to the Company at its Registered Office or to such persons at such address as may be notified by the Company from time to time and shall be deemed to have been received on actual receipt of the same.

7.14 Splitting and Consolidation:

Splitting and consolidation of the NCD5 is not applicable in the dematerialised mode form since the saleable lot is 1 (one) Debenture.

7.15 Transfers

The NCD may be transferred to any person duly qualified to acquire such NCDs under the Applicable Laws.

7.16 Letters of Allotment

The letter of allotment, indicating allotment of the Debentures, will be credited in dematerialised form within 2 (Two) Business Days from the Deemed Date of Allotment.

7.17 Succession

In the event of demise of a Debenture Holder, the Company will recognize the executor or administrator of the demised Debenture Holder or the holder of succession certificate or other legal representative of the demised Debenture Holder as the registered holder of such NCDs, if such a person obtains probate or letter of administration or is the holder of succession certificate or other legal representation, as the case may be, from a court in India having jurisdiction over the matter and delivers a copy of the same to the Company.

The Company may, in its absolute discretion, where it thinks fit, dispense with the production of the probate or letter of administration or succession certificate or other legal representation, in order to recognise such holder as being entitled to the NCDs standing in the name of the demised Debenture Holder on production of sufficient documentary proof or indemnity. In case a person other than individual holds the NCDs, the rights in the NCDs shall vest with the successor acquiring interest therein, including liquidator or any such person appointed as per the Applicable Law.

7.18 Effect of Holidays

Should the date of payment of any Coupon which is due in respect of any Tranche/Series of Debentures fall on a day other than a 'Business Day' the immediately succeeding Business Day shall be considered as the effective date(s) for that payment.

In the event that the date of payment of the redemption amounts in respect of any Tranche of Debentures falls on a day other than a 'Business Day', the immediately preceding Business Day shall be considered as the effective date for that payment.

All interest and redemption calculations shall be made up to 1 (one) Business Day prior to the date of actual payment.

7.19 Debentures to Rank *Pari- Passu*

The Debenture(s) of this Issue shall rank first *pari-passu* inter-se without preference or priority of one over the other or others.

7.20 Splitting and Consolidation:

Splitting and consolidation of the NCDs is not applicable in dematerialised form since the saleable lot is 1 (one) Debenture.

SECTION VIII—KEY REGULATIONS AND POLICIES

The following description is a summary of certain laws applicable in India to the business of our Company. The summary of laws, regulations and policies set forth below is not exhaustive and is only intended to provide general overview.

Our Company is engaged in the business of providing loans against collaterals. We are governed by the laws governing service sector enterprises and commercial establishments. We are a non-deposit taking (which does not accept public deposits), systemically important, NBFC. As such, our business activities are regulated by RBI regulations applicable to non-public deposit accepting systemically important NBFCs (“*ND-SI NBFC*”).

Taxation statutes such as the Income Tax Act, 1961, the Finance Act, 1994, the Shops and Establishments Act, 1958, labour regulations such as the Employees’ State Insurance Act, 1948 and the Employees’ Provident Fund and Miscellaneous Act, 1952, and other miscellaneous regulations and statutes apply to us as they do to any other Indian company. The statements below are based on the current provisions of Indian law, and the judicial and administrative interpretations thereof, which are subject to change or modification by subsequent legislative, regulatory, administrative or judicial decisions.

Regulations governing NBFCs

As per the RBI Act, a financial institution has been defined as a company which includes a non-banking institution carrying on as its business or part of its business the financing activities, whether by way of making loans or advances or otherwise, of any activity, other than its own and it is engaged in the activities of loans and advances, acquisition of shares / stock / bonds / debentures / securities issued by the Government of India or other local authorities or other marketable securities of like nature, leasing, hire-purchase, insurance business, chit business but does not include any institution whose principal business is that of carrying out any agricultural or industrial activities or the sale / purchase / construction of immovable property.

As per prescribed law any company that carries on the business of a non-banking financial institution as its ‘principal business’ is to be treated as an NBFC. The term ‘principal business’ has not been defined in any statute, however, RBI has clarified through a press release (Ref. No. 1998-99/ 1269) issued in 1999, that in order to identify a particular company as an NBFC, it will consider both the assets and the income pattern as evidenced from the last audited balance sheet of the company to decide a company’s principal business. The company will be treated as an NBFC if its financial assets are more than 50 per cent of its total assets (netted off by intangible assets) and income from financial assets should be more than 50 per cent of the gross income. Both these tests are required to be satisfied in order to determine the principal business of a company.

Every NBFC is required to submit to the RBI a certificate, from its statutory auditor within one month from the date of finalization of the balance sheet and in any case not later than December 30 of that year, stating that it is engaged in the business of non-banking financial institution requiring it to hold a certificate of registration.

NBFCs are primarily governed by the RBI Act, the Prudential Norms for Systemically Important Non-Deposit Taking Norms for Non-Banking Financial Company, 2017 read with RBI Norms for Raising Money through Private Placement of Non-Convertible Debentures (NCDs) issued vide circular bearing reference DNBR (PD) CC No.021/03.10.001/2014-15 dated February 20, 2015. In addition to these regulations, NBFCs are also governed by various circulars, notifications, guidelines and directions issued by the RBI from time to time.

Securities Contract Regulation Act, 1956

The Securities Contract (Regulation) Act, 1956 as amended till date (“SCRA”) seeks to prevent undesirable transactions in securities by regulating the business of dealing in securities and other related matters. The SCRA provides for grant of recognition for stock exchanges by the Central Government. Every recognized stock exchange is required to have in place a set of rules relating to its constitution and bye-laws for the regulation and control of contracts. The said act deals with recognition, derecognition, regulation / control on the stock exchanges, empowers the stock exchanges for making its own bye laws, rules and the provisions pertaining

to listing of securities, delisting of securities and dealing in securities. The said enactment also provides for appellate mechanism.

The bye-laws inter-alia provide for:

1. the opening and closing of markets and the regulation of the hours of trade;
2. the fixing, altering or postponing of days for settlements;
3. the determination and declaration of market rates, including the opening, closing highest and lowest rates for securities;
4. the terms, conditions and incidents of contracts, including the prescription of margin requirements, if any, and conditions relating thereto, and the forms of contracts in writing;
5. the regulation of the entering into, making, performance, recession and termination of contracts, including contracts between members or between a member and his constituent.

Other disclosures are made in accordance with Section 42 of the Companies Act, 2013 and rule 14(1) of Companies (Prospectus and of Securities) Rules, 2014. (Provided in Form PAS – 4 annexed as Annexure I)

Ratings

Instrument	Amount (Rs. crore)	Ratings	Rating Action
Non-Convertible Debentures (Proposed)	50 (Rupees fifty crore only)	CARE A-; Negative (Single A Minus; Outlook: Negative)	Assigned

Details of instruments/facilities in Annexure-1

Detailed Rationale & Key Rating Drivers

The rating factors in the established presence of the Centrum Group in the financial services segment, with experienced management and comfortable capital adequacy levels of Centrum Financial Services Limited (CFSL).

The rating is however constrained by concentration in CFSL's loan portfolio towards supply chain financing and entry into newer products segments i.e. MSME which are yet to be established. The rating also takes into account CFSL's weak profitability and concentrated resource profile amidst overall tight funding scenario for NBFC/HFC sector.

In light of current outbreak of COVID-19 and the nationwide lockdown, the liquidity profile of CFSL is primarily dependent upon collections from supply chain book. As per liquidity statement dated March 31, 2020, CFSL cash and bank balance of Rs.78 crore against which company has debt outflows of around Rs.142 crores until June'20 after considering moratorium given on bank/NBFC borrowing. The company has requested moratorium from bank/NBFC term loan borrowing and existing lenders have provided moratorium except from one lender which is under discussion. Further, company is expecting moderated collections of Rs.224 crore until June'20 against scheduled collections of Rs.337 crore during same period on account of moratorium extended by CFSL. The expected moderated of collection Rs.224 crore until June'20 are primarily contributed by Supply Chain Book, being a short tenor book with facilities being self-liquidating in nature.

CARE also takes note of the recent measures announced by RBI in light of the Covid-19 pandemic to provide liquidity (including Targeted long term repo operations) and relaxation on asset classification.

Outlook: Negative

The outlook is 'Negative' on account of depletion of equity funds committed for future growth, concentrated resource profile along with product concentration and weaker profitability amidst challenging funding environment for NBFCs & HFCs. Further 'Negative' outlook also takes into account current outbreak of COVID-19 and the nationwide lockdown which could impact the asset quality of CFSL going forward. Given the tough operating environment for real estate/commercial finance & MSME players on the back of expected lower economic growth, the asset quality and profitability of CFSL may be under pressure.

The outlook may be revised to 'Stable' if the company is able to improve its profitability, scale up its credit book, diversify its resource profile, establish visibility of equity infusion and maintain the asset quality at current levels.

Rating sensitivities

Positive factors - Factors that could lead to positive rating action/upgrade:

- Sizeable capital infusion

Negative factors: Factors that could lead to negative rating action/downgrade:

- Material deterioration in asset quality beyond 4% on a sustained basis
- No material improvement in profitability in the short to medium term and losses in the short term
- Continuing concentration in resource and product profile
- Increase in gearing levels beyond 4x.

Detailed description of the key rating drivers of CFSL**Key rating strengths****Established presence of the group in the financial services segment**

CFSL was 100% subsidiary of Centrum Capital Limited (CCL). However, the entire shareholding of CFSL was sold by Centrum Capital Limited (CCL) to Centrum Retail Services Limited (CRSL) as on June 30, 2019. CCL holds 93.33% of CRSL and the balance is held by Promoters. The centrum group has presence across various segments including institutional business (investment banking, institutional broking), wealth management business (private wealth, insurance broking), lending

Press Release

businesses (affordable housing, NBFC and microfinance) and asset management business. Centrum Wealth Management is amongst the top private wealth management firms in India of which the asset under service as on Sept 30, 2019 stood at Rs.21,026 crores. The group has set-up Centrum Housing Financial Ltd (CHFL) for offering affordable housing loans and a non-banking finance company, Centrum Financial Services Limited (CFSL) for offering business loans to small and medium enterprises and Centrum MicroCredit Pvt Ltd for providing loans to un-served and under-served borrowers operating small businesses in semi-urban areas.

Experienced management

The centrum group is being led by Mr. Jaspal Bindra former Asia Pacific CEO at Standard Chartered Bank in the role of Executive Chairman of Centrum group.

Mr. Ranjan Ghosh is the MD of CFSL since 2016. He is the former MD and Global Head of Banks, Financial Institutions Group for Standard Chartered Bank. Mr. Saurabh Srivastava is the Head – Credit Risk. He has 18+ years of Experience in the banking industry across various functional roles with MNCs and Leading NBFCs like HSBC and Aditya Birla Finance. Each of the business segments is managed by experienced people in the relevant segments.

Comfortable capital adequacy levels

The tangible net worth stood at Rs.292.98 crores as on March 31, 2019 as against Rs.168 crores as on March 31, 2018. CCL has infused equity of Rs.60 crores in FY18 and Rs.140 crores as equity and Compulsory convertible debentures (CCD's) in FY19. CCL has earlier committed a total equity infusion of Rs. 450 crores ie Rs. 150 crores in FY19 and Rs. 300 crores in FY20 in CFSL, the visibility of the cashflows was seen due to the proceeds of ~Rs. 900 crores received from the stake sale of Centrum Direct Limited. In light of the challenging funding environment for NBFCs, CFSL recalibrated its growth plans whereby the equity funding requirement came down from what was initially envisaged. However, the visibility of funds for equity infusion, which was evident at the parent level last year, has reduced substantially. Hence, the company/promoter will have to raise resources to meet their capital requirement in future and this remains a key rating monitorable.

In FY19, Total Capital Adequacy Ratio (CAR) stood at 23.01% (against the regulatory requirement of 15%) with Tier I CAR at 21.44%. The overall gearing stood at 3.33x times as on March 31, 2019 as compared to 2.04 times as on March 31, 2018. As on December 31, 2019, CAR and Tier-I Capital stood comfortable at 25.04% and 23.07% respectively. The gearing also has improved to 2.59x times as on December 31, 2019.

Key rating weaknesses
Portfolio concentration & seasoning of new products

As on March 31, 2019, the outstanding portfolio stood at Rs.1134 crore as against Rs.343 crore as on March 31, 2018. In FY18, CFSL had envisaged a certain portfolio mix focused with diversification of book across different asset classes primarily being commercial finance, financial institutions, supply chain and real estate. However, in FY19 CFSL bought the supply chain portfolio (with relatively granular ticket size loans) from L&T Finance Limited which constitutes almost 54% of the outstanding book as on March 31, 2019.

In case of real estate portfolio, almost 40% of the book is in the last stage of completion and the sales velocity of this book is also high which helps to derive comfort. In case of FI's portfolio, as on March 31, 2019, exposure to MFI's is 73.4% of the total financial intermediary portfolio, however it being a relatively riskier asset class on account of event risks, asset quality performance and its impact on profitability will be key rating monitorable.

In the commercial finance portfolio as on March 31, 2019, top 10 exposures contribute to 56.74% of the tangible net worth, 45.47% of the outstanding commercial finance portfolio and 14.66% of the total outstanding book. Maximum single borrower concentration is at 2.20% which is below the regulatory requirement of RBI at 15%.

Besides, LAS being a small portfolio has an average security cover of at least 2x at all times. However, this business is in the process of being wound up.

The supply chain business being competitive in nature, it is imperative for CFSL to access funding at relatively lower rates to maintain the spreads on an on-going basis. With current scenario in the NBFC sector, with lower funding availability and higher cost of funds, CFSL ability to do the same needs to be monitored.

Going forward, CFSL intends to diversify its portfolio with lower ticket sizes in the SCF and MSMSE portfolio. Company is primarily focusing on expanding its portfolio through supply chain through alternate business models and financing including co-lending method, MSME financing and lending to financial institutions mainly MFI's. These new products lines are expected to improve the granularity of the overall portfolio, however the asset quality performances of these new segments through the cycles remains to be seen.

Small size of operations with comfortable asset quality

As CFSL is in early years of operations, the size of business is small and the seasoning of portfolio is limited. As a result, its asset quality performance through different economic cycles and geographies is yet to be established. The portfolio outstanding as on March 31, 2019 is Rs. 1134 crore. Even though the seasoning of the portfolio is low, CFSL portfolio is over-collateralised generally 1.2x or 2x of the loan amount for the exposures in commercial finance, real estate and Financial Intermediary segment. Even in case of LAS, the company has a cover of at least 2x at all times. Besides, supply chain being a short term loan churns faster and the ability to scale up the book along with reasonable yields continues to remain a key monitorable. As on December 31, 2019, GNPA and NNPA stood comfortable at 1.88% and 0.78% respectively.

Moderate Profitability

The company is in early stage of operations and has achieved break even in FY19. The Yield on Advances stood at 12.36% and NIM stood at 2.67% as on March 31, 2019. The supply chain book of Rs.647 crores acquired from L&T was a part of the portfolio from January, 2019 onwards and income on the same was only accounted for 3 months and the adjusted yield would be 14.01%. High levels of liquidity was maintained in the form of deposits, investment in liquid funds and temporary advances, all of which impacted yields and thereby profitability. The cost of borrowings stood at 9.92% as on March 31, 2019. The buy-out of supply chain portfolio has resulted in rise in employee benefit and other operational expenses but has provided liquidity and diversified portfolio. The yields on the entire portfolio including the SCF yields has been repriced from Q2FY20 onwards, which would enable the Company to have better average yield.

During 9MFY20, company has total income of Rs.117 crores, the increase being primarily due to increase in yields and acquisition of Supply Chain Book from L&T. Thus the ability to improve profitability shall continue to remain a key monitorable going forward.

Moderate Resource Profile

As on March 31, 2019, the borrowings stood at Rs.975 crore. Post the NBFC crisis in September'18, company's major source of finance has been only through MLD's. Post March,2019, CFSL has been raising MLD's of approx. Rs.25-30 crores in each month and same is expected to continue in FY20. Thus, Company has availed minimal loan from any bank/NBFC post March, 2019 and is largely dependent on MLD's as a source of finance thereby accessing the capital markets. However in FY20 and currently, CFSL has been able to raise few facilities from banks viz; Union Bank of India, State Bank of India, RBL Bank, Andhra bank. As on December 31, 2019, the borrowings stood at Rs.742 crores.

Liquidity: Adequate

The Company's ALM profile shows no negative gaps in any time brackets as on December 31, 2019 on higher proportion of Supply chain book, which is short term in nature. As per liquidity statement dated March 31, 2020, CFSL cash and bank balance of Rs.78 crore against which company has debt outflows of around Rs.142 crores until June'20 after considering moratorium given on bank/NBFC borrowing. The company has requested moratorium from bank/NBFC term loan borrowing and existing lenders have provided moratorium except from one lender which is under discussion. Further, company is expecting moderated collections of Rs.224 crore until June'20 against scheduled collections of Rs.337 crore during same period on account of current COVID-19 pandemic and nationwide lockdown. The expected moderated of collection Rs.224 crore until June'20 are primarily contributed by Supply Chain Book of CFSL, which is short term nature and less likely to impacted by current nationwide lockdown. In light of above, collections from supply chain book are critical to the liquidity profile of CFSL.

Disclaimer

CARE's ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. CARE's ratings do not convey suitability or price for the investor. CARE's ratings do not constitute an audit on the rated entity. CARE has based its ratings/outlooks on information obtained from sources believed by it to be accurate and reliable. CARE does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE or its subsidiaries/associates may also have other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating /outlook assigned by CARE is, inter-alia, based on the capital deployed by the partners/proprietor and the financial strength of the firm at present. The rating/outlook may undergo change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors. CARE is not responsible for any errors and states that it has no financial liability whatsoever to the users of CARE's rating.

Our ratings do not factor in any rating related trigger clauses as per the terms of the facility/instrument, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and if triggered, the ratings may see volatility and sharp downgrades.
